**Situation:**

On October 23, 2025, Border Patrol Agents were working in support of Operation Midway Blitz in Chicago, IL. At approximately 9:50 A.M., agents reported a big box truck attempted to Ram into agents at W 27th St and S Sacramento Ave. At approximately 9:54 hrs. agents arrested the two USC's from the box truck. At the same time agents reported that they were blocked in at the next intersection located at W 27th St / S Whipple St, Chicago, IL 60623. A crowd began to group in the area and agents reported fireworks and pandemonium. Agents deployed gas in the area to disperse the crowd that was ineffective.

The crowd in the area began to surround a transport van that was responding to the area. Agents deployed more gas, and the transport unit was able to depart the area with several USC's and IAs. Agents reported that a crowd of civilians and media was in the area. More QRF units arrived on scene.

At approximately 10:15 A.M., an unknown male threw a rock directly at an agent and struck him in the head. The agent was wearing his ballistic helmet and did not sustain any injuries.

Chicago Police Department (CPD) responded to the area. Agents attempted to depart from the area but were surrounded by the crowd. Agents exited their vehicles and decided to assist in walking the vehicles out. CPD assisted in holding back the crowd while agents attempted to get in their vehicles and exfil. Simultaneously, several subjects began to throw rocks and other objects.

Agents reported that their back window had been broken near the intersection of W 26th St and S Sacramento Ave. At the same time agents advised that they were blocked in at the intersection of W 26th St / S Avers Ave, Chicago, IL 60623. Agents advised that additional cars were called in to assist and gas was deployed. Agents reported that a tire was punctured and required a tire change. Tire was changed out at the Chicago PD building.

All agents were called clear with no injuries reported.

OPR was notified.
