Was CREHAN, ANDREW W. injured? Yes ☒ No

SUBJECTS: 5

Name: MASS GROUP

Estimated number of individuals in the group: 100

Group description (Composition, attire, etc.): Approximately 100 or more individuals wearing civilian clothing.

Was any member of this group wearing body armor? Yes No ☒ Unknown

Group activity:

Illegal entry
☒ Uncooperative during encounter/inspection
 Failure to yield/heave to
 Checkpoint runner
 Port runner

Alien smuggling
 Narcotics smuggling
 Scouting
☒ Assault (rocks/other projectiles)
☒ Assault (all other types)
☒ Rioting/civil disturbance
 Mass coordinated entry
 No suspected illegal activity
 Other

Group's current location and disposition if known: The individuals dispersed enough so our vehicle could safely pass.

Did any member of this group not listed as an individual subject assault a CBP employee? ☒ Yes No

Was any member of the group outside the US or its territories when committing the assault? Yes ☒ No

Weapon(s)/type of assault:

Assault method: Rocking (rocks only)

Estimated assault date/time (local): 10/14/2025 12:25

Assault method: Projectile (other than rock)

Projectile description: Bricks, Pieces of Concrete, Eggs

Estimated assault date/time (local): 10/14/2025 12:25

Was reportable force used on any member of this group not listed as an individual subject? ☒ Yes No

Was any member of this group outside the US or its territories when this force was applied? Yes ☒ No

Name: UNKNOWN-1

Gender: Male **Age:** 18-25 years old **Height:** 5'6" - 5'11" **Weight:** 150 - 199 lbs

Attire: ☒ Civilian Paramilitary Police Nude Unknown

Was the subject wearing body armor? Yes ☒ No Unknown

Immigration status: Unknown

Country of citizenship: Unknown

Was there an apparent or known mental impairment (E.g., mental illness/alcohol/drugs) in the condition of the subject?

Yes ☒ No

Subject's activity:

Illegal entry

☒ Uncooperative during encounter/inspection

Failure to yield/heave to

Checkpoint runner

Port runner

Alien smuggling

Narcotics smuggling

Scouting

☒ Assault (rocks/other projectiles)

☒ Assault (all other types)

☒ Rioting/civil disturbance

Mass coordinated entry

No suspected illegal activity

Other

Subject's current location and disposition if known: Unknown subject threw projectiles at the officers/agents then fled into the crowd.

This incident is related to other documented incidents in E-STAR. Please refer to the following E-STAR reports for additional information:

LES #25763

Immigration and Customs Enforcement (ICE) is currently executing "Operation Midway Blitz" targeting immigration violators throughout the nation. The operation focuses on law enforcement operations in direct support of Presidential Executive Orders while ensuring personnel safety and maintaining tactical control while operating in a confined, civilian-heavy environment.

In support of "Operation Midway Blitz", the Department of Homeland Security (DHS) and Department of Justice (DOJ) have developed a 6-month, nationwide operation to significantly increase "at large" arrests of illegal aliens, including individuals with executable final orders of removal, known immigration violations, as well as general immigration enforcement. In May 2025, this operation commenced by deploying 1,000 interagency teams daily across the U.S., operating 7 days a week. The operation prioritizes regions with the highest concentrations of executable final orders, with resources dynamically reallocated weekly to maximize efficiency. The operation integrates personnel from the Department of Homeland Security (DHS), Immigration and Customs Enforcement (ICE) Enforcement and Removal Operations (ERO), Homeland Security Investigations (HSI), United States Border Patrol (USBP), Office of Field Operations (OFO), Air and Marine Operations (AMO), Office of Information Technology (OIT) and, Department of Justice (DOJ), Federal Bureau of Investigation (FBI), Drug Enforcement Administration (DEA), Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), United States Marshals Service (USMS), Internal Revenue

Service (IRS) – Criminal Investigation Division (CID), and National Guard, with additional support from any cooperating 287(g) partners in their assigned jurisdictions. The operation aims to enhance public safety and enforce immigration laws.

Public source information regarding the Chicago, Illinois metropolitan area estimates there are approximately 257,000 undocumented immigrants living in and around Chicago. Records also indicate approximately 50,000 illegal aliens were transferred to Chicago from border states between 2022 - 2024.

Narrative of WILLETTE, KAELAN C.

On October 14, 2025, the Special Operations Division (SOD) deployed members of the Special Response Team (SRT) to Chicago, IL in support of Operation At Large. SRT Operators are tasked with identifying, locating, and apprehending high-priority fugitives who pose significant threats to public safety or national security. The operation involves collaboration between DHS components, including CBP, ICE, and the U.S. Marshals Service, as well as federal, state, and local law enforcement agencies. Utilizing advanced intelligence, surveillance, and investigative techniques, the operation will target individuals with outstanding warrants for violent crimes, terrorism-related activities, human trafficking, drug smuggling, and other serious offenses. Key objectives include enhancing interagency coordination, leveraging technology for efficient tracking, and ensuring swift apprehension to mitigate risks to communities. Operation At Large underscores DHS's commitment to safeguarding the homeland by prioritizing the capture of dangerous fugitives and disrupting criminal networks.

I am Customs and Border Protection Special Response Team Operator Kaelan Willette. I have 6 years of experience enforcing federal immigration law as a U.S. Customs and Border Protection Officer to include the enforcement of Title 8 violations. I have received numerous and continuous on-the-job training in law enforcement operations involving both deadly force and less-lethal force applications, as well as other enforcement tactics and procedures.

On October 14th of 2025 I was responding to a car accident involving US Border Patrol Agents. Intelligence received was that the BP vehicle was completely disabled and a crowd was beginning to form.

On October 14, 2025, at approximately 1055, I was assisting Immigration Customs Enforcement SRT during a mass gathering at the site of the accident located on the intersection of E 105th Street and S Avenue North.

As OFO SRT Operators moved forward to verbally instruct the crowd to clear a path for Tow truck and safety reasons, the crowd responded with verbal hostility and refused to comply. Without provocation, individuals within the crowd began throwing dangerous objects including rocks, eggs, bricks, and other unknown hard projectiles directly at officers.

At approximately 1224 hours, a crowd of approximately 100 individuals were surrounding the intersection of the accident. While officers attempted to effect arrests of individuals directly observed assaulting officers or throwing rocks, and eggs continued to be launched from the crowd. As Officers were arresting one individual, at approximately 1225 I was assaulted by another individual.

These thrown objects presented a serious and immediate threat to law enforcement personnel. Items such as rocks can cause blunt force trauma, or other significant bodily injuries, especially when thrown with force at close range. The chaotic environment created by this aggression not only endangered officers but also increased the risk of injury to bystanders and others within the crowd.

The Crowd of individuals were observed piling rocks and other hand thrown objects commonly used as weapons in prior incidents against law enforcement. Members of the crowd were shouting obscenities and making threatening statements towards OFO SRT Operators and agents including verbal expressions wishing death upon personal. I assisted with several arrests of individuals throwing objects at OFO SRT.

I did not sustain any injuries during this event. My body worn camera was activated during this operation containing evidence of serial number LES. My body worn camera was activated on several occasions depicting these events.

Narrative of MACHUCA, ROBERTO

On October 14, 2025, the Special Operations Division (SOD) deployed members of the Special Response Team (SRT) to Chicago, IL in support of Operation At Large. SRT Operators are tasked with identifying, locating, and apprehending high-priority fugitives who pose significant threats to public safety or national security. The operation involves collaboration between DHS components, including CBP, ICE, and the U.S. Marshals Service, as well as federal, state, and local law enforcement agencies. Utilizing advanced intelligence, surveillance, and investigative techniques, the operation will target individuals with outstanding warrants for violent crimes, terrorism-related activities, human trafficking, drug smuggling, and other serious offenses. Key objectives include enhancing interagency coordination, leveraging technology for efficient tracking, and ensuring swift apprehension to mitigate risks to communities. Operation At Large underscores DHS's commitment to safeguarding the homeland by prioritizing the capture of dangerous fugitives and disrupting criminal networks.

I am Customs and Border Protection Special Response Team Operator Roberto Machuca. I have 19 years of experience enforcing federal immigration law as a U.S. Customs and Border Protection Officer to include the enforcement of Title 8 violations. I have received numerous and continuous on-the-job training in law enforcement operations involving both deadly force and less-lethal force applications, as well as other enforcement tactics and procedures.

On October 14th of 2025, a call for all units to respond was made at approximately 10:40. I was responding to a car accident with other officers involved in assisting US Border Patrol Agents on Operation Midway Blitz.

At approximately 1055 hrs, I arrived at the site of the vehicle accident located at the intersection of E. 105th Street and S Avenue North. Upon arriving on scene, I encountered a large group of approximately 100 people yelling, cursing and very agitated. The crowd was harassing and taunting the officers/agents as well as threatening violence. I assisted in crowd control by creating a physical barrier between the vehicle accident and the crowd. The vehicles involved were inoperable and were continuously being surrounded by the angry crowd.

As OFO SRT Operators and US Border Patrol Agents moved forward to verbally instruct the crowd to clear a path for Tow truck and safety reasons, the crowd responded with verbal hostility and refused to comply. Without provocation, individuals within the crowd began throwing dangerous objects including rocks, eggs, broken bricks, and other unknown hard projectiles directly at officers impacting officers/agents and vehicles on scene.

At approximately 1226 hrs, the crowd swelled in size to an undetermined number, irate and aggressively surrounded the intersection of the accident. While officers attempted to effect arrests of individuals directly observed assaulting officers or rocks, eggs, broken bricks, additional objects continued to be launched from the crowd. As Officers were arresting one individual, I saw an unknown male subject throw what appeared as several rocks towards myself and the officers/agents conducting the arrest. The subject appeared to be approximately 25-30 yards away. I responded by deploying two direct impact 40 millimeter projectiles at the subject. The subject appeared to not be impacted by the projectiles; the subject stopped throwing rocks and cleared the area via an alley. No other use of force was utilized after the event.

I did not sustain any injuries, and my body cam was operational and recorded during the event. Body Cam evidence number

LES

Narrative of CREHAN, ANDREW W.

On October 14, 2025, the Special Operations Division (SOD) deployed members of the Special Response Team (SRT) to Chicago, IL in support of Operation At Large. SRT Operators are tasked with identifying, locating, and apprehending high-priority fugitives who pose significant threats to public safety or national security. The operation involves collaboration between DHS components, including CBP, ICE, and the U.S. Marshals Service, as well as federal, state, and local law enforcement agencies. Utilizing advanced intelligence, surveillance, and investigative techniques, the operation will target individuals with outstanding warrants for violent crimes, terrorism-related activities, human trafficking, drug smuggling, and other serious offenses.

Key objectives include enhancing interagency coordination, leveraging technology for efficient tracking, and ensuring swift apprehension to mitigate risks to communities. Operation At Large underscores DHS's commitment to safeguarding the homeland by prioritizing the capture of dangerous fugitives and disrupting criminal networks.

I am Customs and Border Protection Special Response Team Operator Andrew Crehan. I have 10 years of experience enforcing federal immigration law as a U.S. Customs and Border Protection Officer to include the enforcement of Title 8 violations. I have received numerous and continuous on-the-job training in law enforcement operations involving both deadly force and less-lethal force applications, as well as other enforcement tactics and procedures.

On October 14th of 2025 I was responding to a car accident involving US Border Patrol Agents. Intelligence received was that BP's vehicle was disabled and inoperable. At approximately 1055 hours, I arrived at the intersection of E 105th Street and S

Avenue North where a mass gathering was beginning to form at the site of the accident. Once on scene, I staged myself on perimeter for crowd control.

At approximately 1225 hours, a crowd of 100+ agitators were surrounding other officers and myself at the intersection of the accident. As we were trying to leave, individuals in the crowd began throwing eggs, rocks, and bricks at officers, including myself, who were set on perimeter. As a result, along with fellow officers, I ran into the crowd to effect an arrest of subject who was observed throwing projectiles. After the arrest was made, a group of agitators began to surround us, at which point I deployed one (1) SAF Smoke approximately 15 feet to disperse the crowd that was forming. The deployment of SAF Smoke successfully resulted in the crowd dispersing the area.

At approximately 1240 hours, as we again tried to leave, the mob began to throw bricks and pieces of concrete, nearly hitting an officer. Given the rapidly evolving situation, I deployed one (1) Pocket TAC CS approximately 10 feet to disperse them once again and allow us to exfiltrate the scene. Due to the exigent circumstances of bricks and pieces of concrete being thrown at us, and not knowing where these objects would be thrown from next, I deployed the Pocket TAC CS without giving notification to the surrounding mob. The deployment allowed for the protection of the lives of not only myself, but also my fellow officers, because if one of those blunt objects hit us in the head, it could have caused serious bodily injury or death. Additionally, the Pocket TAC CS caused the mob to scatter and allowed us to successfully exit the area.

These thrown objects presented a serious and immediate threat to law enforcement personnel. Items such as rocks can cause blunt force trauma, hearing damage, or other significant bodily injuries, especially when thrown with force at close range. The chaotic environment created by this aggression not only endangered officers but also increased the risk of injury to bystanders and others within the crowd.

The Crowd of individuals were observed piling rocks and other hand thrown objects commonly used as weapons in prior incidents against law enforcement. Members of the crowd were shouting obscenities and making threatening statements that included wishing death upon our personnel.

I did not sustain any injuries during this event. My body worn camera was activated during this operation containing evidence serial number LES

Narrative of SMITH, CALDWELL A.

On September 5th, 2025, the Special Operations Division (SOD) deployed members of the Special Response Team (SRT) to Chicago, IL in support of Operation At Large. SRT Operators are tasked with identifying, locating, and apprehending high-priority fugitives who pose significant threats to public safety or national security. The operation involves collaboration between DHS components, including CBP, ICE, and the U.S. Marshals Service, as well as federal, state, and local law enforcement agencies. Utilizing advanced intelligence, surveillance, and investigative techniques, the operation will target individuals with outstanding warrants for violent crimes, terrorism-related activities, human trafficking, drug smuggling, and other serious offenses. Key objectives include enhancing interagency coordination, leveraging technology for efficient tracking, and ensuring swift apprehension to mitigate risks to communities. Operation At Large underscores DHS's commitment to safeguarding the homeland by prioritizing the capture of dangerous fugitives and disrupting criminal networks.

I am Customs and Border Protection (CBP) Special Response Team Operator (SRT) Special Operations Supervisor (SOS) Caldwell Smith. I have 14 years of experience enforcing federal immigration law as a U.S. Customs and Border Protection Officer to include the enforcement of Title 8 violations. I have received numerous and continuous on-the-job training in law enforcement operations involving both deadly force and less-lethal force applications, as well as other enforcement tactics and procedures.

On October 14th of 2025 I was responding to a car accident involving US Border Patrol (BP) Agents. Intelligence received was that the BP vehicle was completely disabled and a large crowd was beginning to form- there were approximately 70 people at this time- and the crowd was growing. At approximately 1055, I arrived at the intersection of E 105th Street and S Avenue North where a mass gathering began to form at the site of the vehicle accident, there were approximately over 100 people at this time. At approximately 1150 while officers and agents were attempting to clear a path in the street to bring a GOV/Rental into the established perimeter the mob began to shove officers and agents. I deployed one (1) Pocket Tac Saf Smoke about 3 feet from where I was standing to conceal the movements of my team while deescalating the violent mob. Additionally, we needed to conceal the movement of the BP vehicle so it could enter the established perimeter. The deployment of the smoke worked as it

was intended, the mob in the street moved and the vehicle was able to enter the perimeter.

At approximately 1200 the majority of officers and agents on scene donned gas masks in the event CS gas would need to be deployed since the crowd became more hostile and started throwing objects at the officers/agents on site.

At approximately 1225 hours, a mob of approximately 100+ people surrounded nearly all of the officers and agents on scene. I was hit on the forehead with an egg that was forcefully thrown, but I was unable to see where it came from or who threw it. Other officers and agents saw the person who threw it. At that time, the officers and agents rapidly pushed forward the width of the street and sidewalk to maintain the perimeter and keep the scene safe. Multiple officers/agents moved through the perimeter in order to apprehend the person who was throwing objects, and I provided security. I pushed up with them and saw a white male with a beard and sunglasses wearing jeans and a grey shirt run at full speed and purposely collide into SRT Willette knocking him to the ground. The subject hopped onto and over the hood of a car in the direction of additional officers and agents. As he went over the car he took a fighting stance. I moved around a tree and deployed a 40mm direct impact green marking projectile from 25-30ft expecting him to assault another officer or agent who likely had a restricted field of vision and was focused on the mob in front of them instead of their side or slightly behind them, I do not believe the projectile made contact with the white male. His body language did not appear that he was impacted by the 40mm projectile. I expected the subject to blind side another officer or agent and he ran throughout the crowd. BP Agents near the subject when he was struck attempted to apprehend him but were unable to effect an arrest.

At approximately 1240, the crowd of protestors began to throw rocks, bricks and what appeared to be chunks of concrete or cinder blocks. One of these objects almost hit me in the head. As a result, I deployed one (1) Pocket TAC Saf Smoke at my feet as I continued to make my way to my vehicle in order to mask our withdrawal from the intersection.

Heavy, hard objects, like what was being thrown at us (bricks, rocks, and concrete) can cause serious bodily injury or death, especially when thrown with force at close range. The chaotic environment created by this aggression not only endangered officers but also increased the risk of injury to bystanders and others within the crowd.

Members of the mob were shouting obscenities such as, "faggot, pussy, bitch ass, mother fucker" to list a few.

I did not sustain any injuries during this event. My body worn camera was activated during this operation containing evidence serial number **LES**

Narrative of KIME, PATRICK R.

On September 5, 2025, the Special Operations Division (SOD) deployed members of the Special Response Team (SRT) to Chicago, IL in support of Operation At Large. SRT Operators are tasked with identifying, locating, and apprehending high-priority fugitives who pose significant threats to public safety or national security. The operation involves collaboration between DHS components, including CBP, ICE, and the U.S. Marshals Service, as well as federal, state, and local law enforcement agencies. Utilizing advanced intelligence, surveillance, and investigative techniques, the operation will target individuals with outstanding warrants for violent crimes, terrorism-related activities, human trafficking, drug smuggling, and other serious offenses. Key objectives include enhancing interagency coordination, leveraging technology for efficient tracking, and ensuring swift apprehension to mitigate risks to communities. Operation At Large underscores DHS's commitment to safeguarding the homeland by prioritizing the capture of dangerous fugitives and disrupting criminal networks.

I am Customs and Border Protection Special Response Team Operator Patrick Kime. I have served in this position since 2023. My prior law enforcement experience includes working as a Military Police Officer from 2016 to 2020, Obtaining a Criminal Justice Bachelor's Degree in 2021, as a Corrections Officer with Suffolk County Sheriff's Office 2021 to 2022 and as a Customs and Border Protection Officer from 2022 to the present. I am an SRT Operator and successfully completed the SRT selection course in 2023. I have received numerous and continuous on-the-job training in law enforcement operations involving both deadly force and less-lethal force applications, as well as other enforcement tactics and procedures.

On October 14th of 2025 I was responding to a car accident involving US Border Patrol Agents. Intelligence received was that BP's vehicle was disabled and inoperable. At approximately 1055 hours, I arrived at the intersection of E 105th Street and S Avenue North where a mass gathering was beginning to form at the site of the accident. Once on scene, I staged myself on perimeter for crowd control.

At approximately 1151 hours myself and other officers and agents instructed protestors to move back to allow a government vehicle and tow trucks through. At which point individuals began pushing back against myself and other agents. A safe smoke can was deployed. At which point a male individual in a blue sweatshirt, threw the safe smoke can back at officers and agents. The individual in the blue sweatshirt and other protestors assaulted officers and agents by pushing and striking officers. The male in the blue sweatshirt tried to take off running. I then pursued the individual and assisted in the arrest.

At approximately 1225 hours, a crowd of 100+ agitators were surrounding other officers and myself at the intersection of the

accident. As we were trying to leave, individuals in the crowd began throwing eggs, rocks, and bricks at officers, including myself, who were set on perimeter. As a result, along with fellow officers, I ran into the crowd to effect an arrest of subject who was observed throwing projectiles. I conducted a takedown of the suspect and placed him in zip tie hand cuffs. After the arrest was made, a group of agitators began to surround us.

These thrown objects presented a serious and immediate threat to law enforcement personnel. Items such as rocks can cause blunt force trauma, or other significant bodily injuries, especially when thrown with force at close range. The chaotic environment created by this aggression not only endangered officers but also increased the risk of injury to bystanders and others within the crowd.

The Crowd of individuals were observed piling rocks and other hand thrown objects commonly used as weapons in prior incidents against law enforcement. Members of the crowd were shouting obscenities and making threatening statements that included wishing death upon our personnel.

I did sustain an injury to my left hamstring during this event. My body worn camera was activated during this operation containing evidence serial number **LES**
